

## Vestibular Evoked Myogenic Potential (VEMP) Course

14<sup>th</sup> May 2026

### Agenda

9:45	<b>Welcome &amp; Introduction</b>
10:00	<b>Vestibular Evoked Myogenic Potentials in the assessment of the Otolith Organs</b> <ol style="list-style-type: none"><li>1. Review the physiology and physiological response of the otolith organs, for both the utricle and the saccule.</li><li>2. Discuss the application of the cervical and ocular VEMP related to the anatomy &amp; physiology of the otolith organs.</li></ol>
10:45	<b>Recording a VEMP response</b> <ol style="list-style-type: none"><li>1. Guidance in VEMP setup, montage options and patient requirements.</li><li>2. Using the Eclipse hardware to objectively measure the cervical and ocular VEMP response</li></ol>
11:15	<b>Comfort Break</b>
11:30	<b>VEMP assessment – Clinical Utility (part 1)</b> <ol style="list-style-type: none"><li>1. The application of VEMP assessment in the vestibular diagnostic assessment pathway.</li><li>2. What symptoms should we look out for when considering VEMP?</li><li>3. Which VEMP techniques can be used to differentiate end organ pathologies and / or impairment?</li></ol>
12:30	<b>Lunch</b>
13:15	<b>Workshop: cervical VEMP testing</b> <ol style="list-style-type: none"><li>1. Demonstration of cVEMP</li><li>2. Hands-on workstations to receive training on the steps needed to conduct successful cervical VEMP assessments.</li></ol>
14:00	<b>Workshop: ocular VEMP testing</b> <ol style="list-style-type: none"><li>1. Demonstration of oVEMP</li><li>2. Hands-on workstations to receive training on the steps needed to conduct successful ocular VEMP assessments.</li></ol>
15:00	<b>Comfort Break</b>
15:15	<b>VEMP assessment – Clinical Utility (Part 2)</b> <p>Discussion of VEMP results, and the interpretation when examining peripheral vestibular function and pathologies that selectively affect the otolith organ.</p>
15:45	<b>Question &amp; Answer</b>
16:00	<b>Finish / Close</b>
